## GP Training Practice

Adderley Green Surgery is a teaching & training practice. You therefore may be offered an appointment with a qualified doctor gaining experience in general practice or be asked if one may be present whilst you consult your own doctor. If you prefer to see your doctor in private, please let us know.

## Registrar Doctors

Registrars are fully qualified doctors who have decided they would like to become GPs. They will undertake a minimum of six months of 'on-the-job' training with us here at Adderley Green Surgery and are supervised by the Partners.

## Medical Students

Our practice is a community teaching practice for Keele University. With the supervision of your doctor or nurse, medical students may, with your consent in advance, join your consultation. This is one way medical students learn to become good doctors and understand patient views about their care. We appreciate your help with their learning. Please let your doctor or the Practice Manager know if you have any questions about our community medical teaching.

## Specialist Services

Adderley Green Surgery offers a wide range of specialist services for our patients to book to ensure as many health needs are met as possible at their local GP Surgery.

Adderley Green Surgery is also a constituent practice of Meir Primary Care Network and utilises a variety of their services for our patients.

### Services available include:

- ❖ GP Registrars and Medical Students
- ❖ Midwife
- ❖ Health Visitor
- ❖ District Nurses
- ❖ Community Matron
- ❖ Community Palliative Care Nurse
- ❖ Smoking Cessation Advisor
- ❖ Mental Health Practitioners

- ❖ Travel Vaccination Clinics
- ❖ Women's Health Clinic
- ❖ Diabetes Specialist Clinic
- ❖ Lifestyle & Weight Loss Clinic
- ❖ Chronic Disease Management
- ❖ Phlebotomy
- ❖ Covid Vaccination Clinic
- ❖ Onsite Extended Access appointments

All bookable by speaking to the Reception team

## Off Site & Online Services

As well as offering face to face appointments at both of our practice sites Adderley Green Surgery offers a wide range of online and offsite services including home visits, telephone or video consultations and access to your medical records.

Utilising some of these services can help reduce your waiting time and ensure your health needs can be met in a variety of ways especially when you do not always need to see your GP face to face.

### Services available include:

- ❖ Telephone consultations
- ❖ Video consultations
- ❖ Online medication ordering
- ❖ Pharmacy First Scheme
- ❖ Community Pharmacy Prescription Service
- ❖ Online access to medical records
- ❖ Patient messaging facilities
- ❖ Online GP Triage
- ❖ Remote ward rounds for care homes
- ❖ Home visits
- ❖ Updating of personal information
- ❖ Requests for medical reports
- ❖ Sick note requests
- ❖ Online access to test results
- ❖ Offsite Extended Access appointments

You can find out more by speaking to Reception or by visiting our website.
